

Today's Non-Employee Lifecycle Management Without SecZetta

Today, managing the identity lifecycle for non-employees is an arduous and time-consuming process. From onboarding to auditing and verification to the removal of access on termination, the lack of centralized or complete information can leave your organization exposed to risk.

Non-Employee Lifecycle Management with SecZetta

SecZetta provides purpose-built solutions that enable organizations to execute risk-based identity and lifecycle strategies for diverse non-employee populations. Manual processes are replaced with automated workflows, improving efficiency, audits are simplified, and third-party risk is reduced.
